PROFESSIONAL SUMMARY

Computer Science and Engineering (CSE) graduate skilled in Python, Machine Learning, and Full Stack Web Development (HTML, CSS, JavaScript, Django, REST API, MySQL). Experienced in building and evaluating machine learning models and developing responsive web applications, with strong analytical, problem-solving, and communication skills. Seeking an entry-level Software Developer role to apply technical skills and contribute to real-world projects while continuously learning emerging technologies.

TECHNICAL SKILLS

- **Programming Language:** Python
- **Front-End:** HTML, CSS, JavaScript
- **Back-End:** Django, REST API
- **Database:** MySQL, SQL, Database Design, Queries & Joins
- **Version Control & Tools:** Git, GitHub, VS Code, MS Office
- **Core Concepts:** Object-Oriented Programming (OOP), Problem Solving, Communication

EDUCATION

- **Bachelor of Technology (B.Tech) – Computer Science and Engineering (CSE)** — Avanathi's Research and Technological Academy, Vizianagaram — 2026 — 70%
- **Intermediate (MPC)** — Thammi Naidu Junior College, Palakonda — 2022 — 67%
- **Secondary School Certificate (SSC)** — Z.P. High School, Thotavada — 2020 — 89%

PROJECTS

Diabetes Prediction Using Machine Learning

- Developed a machine learning model in Python to predict diabetes risk from patient health data.
- Performed data pre-processing and exploratory data analysis to prepare the dataset for modeling.
- Applied classification algorithms and tuned model parameters to improve prediction accuracy.
- Evaluated model performance using accuracy, precision, and recall metrics to validate results.

Protecting Electric Vehicle Charging Stations from Cyber Attacks

- Analyzed cybersecurity threats affecting Electric Vehicle (EV) charging station infrastructure.
- Studied unauthorized access, denial-of-service (DoS) attacks, and communication-channel vulnerabilities.
- Implemented authentication and encryption mechanisms to strengthen system security.
- Evaluated existing security measures and recommended best practices for secure EV charging systems.

INTERNSHIP EXPERIENCE

Python Full Stack Development Intern

- Learned Python programming, Object-Oriented Programming (OOP), and web development fundamentals.
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Worked with backend development concepts and database integration.
- Built mini web applications as part of hands-on training projects.

AI & Machine Learning Intern — Black Bucks

- Gained hands-on experience in Artificial Intelligence and Machine Learning using Python.
- Performed data pre-processing and exploratory data analysis (EDA).
- Built and evaluated predictive models using machine learning algorithms.
- Worked on real-world datasets to solve classification and prediction problems.

CERTIFICATIONS

- DevOps Fundamentals — Data Pro Pvt. Ltd.
- DevOps on AWS: Code, Build, and Test — AWS Training and Certification.
- Python Basics and Machine Learning — Infosys Springboard.

LANGUAGES

- English
- Telugu

HOBBIES & INTERESTS

- Playing Cricket — enjoy team sports and strategic thinking
- Reading Books — fiction and personal development
- Listening to Music — helps unwind and stay focused
